

1. Gender Male Female

2. What is your date of birth? / /

3. What date did you complete this questionnaire? / /

4. Since <IntDte>, have you had an FOBT? (Includes FOBT for National Bowel Cancer Screening Program)

This is a test to detect blood in the stool (faeces) and is usually done at home using a kit. One type of kit uses cards (Hemoccult) and another type requires that a small sample of stool to be placed into a container (faecal immunochemical or FIT). Both types of FOBTs are either mailed or delivered back to the laboratory for analysis.

- Yes → continue
- No → go to question 5
- Don't Know → go to question 5

Since <IntDte>, how many separate occasions have you had an FOBT?

Times

How old were you when you had your most recent FOBT?

Age

What were the reasons for the most recent FOBT (tick all that apply)?

- To investigate a new problem
- Family history of colorectal cancer
- Routine exam or check-up
- Follow-up of a previous problem
- National Bowel Cancer Screening Program
- Follow-up of FOBT result
- Don't know

5. Since <IntDte>, have you had a sigmoidoscopy?

A sigmoidoscopy is an endoscopic procedure similar to a colonoscopy but does not require extensive preparation with oral laxatives the night before the procedure or dietary modification. It is done with or without sedation after preparation of the bowel with an enema.

- Yes → continue
- No → go to question 6
- Don't Know → go to question 6

Since <IntDte>, how many separate occasions have you had a sigmoidoscopy?

--	--

 Times

How old were you when you had your most recent sigmoidoscopy?

--	--

 Age

What were the reasons for the most recent sigmoidoscopy (tick all that apply)?

- To investigate a new problem
- Family history of colorectal cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Follow-up of FOBT result
- Don't know

6. Since <IntDte>, have you had a colonoscopy?

In a colonoscopy, the entire large bowel is examined and a medication is usually given intravenously to relax you or make you sleepy. It is done in an endoscopy day centre or hospital. Preparation involves drinking fluids or taking pills to cleanse the bowel.

- Yes → continue
- No → go to question 7
- Don't Know → go to question 7

Since <IntDte>, how many separate occasions have you had a colonoscopy?

		Times
--	--	-------

How old were you when you had your most recent colonoscopy?

		Age
--	--	-----

What were the reasons for the most recent colonoscopy (tick all that apply)?

- To investigate a new problem
- Family history of colorectal cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Follow-up of FOBT result
- Don't know

7. Since <IntDte>, have you had a CT Colonograph or Virtual Colonoscopy? This is not a regular Colonoscopy. It is a procedure done using x-rays with you lying on a table that slides through a large circular scanner or tunnel. Typically a tube is inserted to inflate the rectum with air. Preparation may include drinking fluid or taking laxatives to cleanse the bowel. You are not given medications to relax you or make you sleep. This procedure may also be referred to as a Virtual Colonoscopy (VC).

- Yes → continue
- No → go to question 8
- Don't Know → go to question 8

Since <IntDte>, how many separate occasions have you had a virtual colonoscopy?

		Times
--	--	-------

How old were you when you had your most recent virtual colonoscopy?

		Age
--	--	-----

What were the reasons for the most recent virtual colonoscopy (tick all that apply)?

- To investigate a new problem
- Family history of colorectal cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Follow-up of FOBT result
- Don't know

8. Since <IntDte>, have you had a barium enema?

A barium enema is an x-ray examination of your colon. X-rays of the colon are taken following a barium enema. Preparation involves fluids, laxatives, and an enema to cleanse the bowel. Barium is a special fluid introduced into the bowel before the x-ray.

- Yes → continue
- No → go to question 9
- Don't Know → go to question 9

Since <IntDte>, how many separate occasions have you had a barium enema?

--	--

 Times

How old were you when you had your most recent barium enema?

--	--

 Age

What were the reasons for the most recent barium enema (tick all that apply)?

- To investigate a new problem
- Family history of colorectal cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Follow-up of FOBT result
- Don't know

9. Since <IntDte>, has a doctor told you that you had polyps in your colon or rectum? Be sure to include all polyps that were found during any of the procedures discussed above that you have had since your last interview and not just polyps that may have been found during your most recent procedure.

- Yes → continue
- No → go to question 10
- Don't Know → go to question 10

If yes, since <IntDte>, have you had any of these polyps removed (usually done during colonoscopy)?

- Yes → continue
- No → go to question 10
- Don't Know → go to question 10

Since <IntDte>, how many separate occasions have you had a polyps removed? Times

The next questions ask about the first three times you had polyps removed since <IntDte>. If you had more procedures, we may need to call you.

Since <IntDte>, how old were you the first time you had polyps removed? Age

Where did you have this procedure performed or what is the name of the doctor who has a copy of this result?

Doctor _____ Hospital/MedicalCentre _____
 _____ City/Town _____ State _____

Since <IntDte>, how old were you the second time you had polyps removed? Age

Where did you have this procedure performed or what is the name of the doctor who has a copy of this result?

Doctor _____ Hospital/MedicalCentre _____
 _____ City/Town _____ State _____

Since <IntDte>, how old were you the third time you had polyps removed? Age

Where did you have this procedure performed or what is the name of the doctor who has a copy of this result?

Doctor _____ Hospital/MedicalCentre _____
 _____ City/Town _____ State _____

10. The next questions ask about cancer screening tests you had at any time in past. **Have you ever had,**

FEMALES

Mammogram? A mammogram is an x-ray examination of the breasts.

- Yes
- No
- Don't Know

What were the reasons you had a mammogram (tick all that apply)?

- Invitation letter from Breast Screen
- To investigate a new problem
- Family history of cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Don't know

Pap Smear? This test is performed to check changes in the cervix (the neck of the womb) at the top of the vagina. It is a screening tool to find early warning signs that cancer might develop in the future.

- Yes
- No
- Don't Know

What were the reasons you had a pap smear (tick all that apply)?

- Invitation letter from the Cervical Screening Program
- To investigate a new problem
- Family history of cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Don't know

MALES

PSA (Prostate Specific Antigen Testing)? The PSA test measures the blood level of prostate-specific antigen in your blood. PSA is a protein that is produced by the prostate gland.

- Yes
- No
- Don't Know

What were the reasons you had a PSA (tick all that apply)?

- To investigate a new problem
- Family history of cancer
- Routine exam or check-up
- Follow-up of a previous problem
- Don't know

11. Since <IntDte>, have you had surgery to remove any of your colon or rectum?

- Yes → continue
- No → go to question 12
- Don't Know → go to question 12

If yes, how old were you the first time you had surgery on your colon or rectum?

		Age
--	--	-----

- Don't Know

How much did you have removed?

- Partially
- Completely
- Don't Know

What was the reason for this surgery?

- Benign or malignant Tumour (including polyp)
- Diverticulitis
- Inflammatory bowel disease, such as Ulcerative colitis or Crohn's disease
- Other, specify
- Don't Know

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Answer below if more than one surgery on your colon or rectum

If yes, how old were you the second time you had surgery on your colon or rectum?

		Age
--	--	-----

- Don't Know

How much did you have removed?

- Partially
- Completely
- Don't Know

What was the reason for this surgery?

- Benign or malignant Tumour (including polyp)
- Diverticulitis
- Inflammatory bowel disease, such as Ulcerative colitis or Crohn's disease
- Other, specify
- Don't Know

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

FEMALES

12. Since <IntDte>, have you had any surgery on your ovaries and/or uterus?

- Yes → continue
- No → go to question 13
- Don't Know → go to question 13

If yes, how old were you the first time you had surgery on your ovaries and/or uterus?

--	--

 Age

What type of surgery did you have the first time?

- Hysterectomy (only the uterus or womb was removed)
- Hysterectomy with ovary or part of an ovary removed
- Hysterectomy with both ovaries removed
- One ovary removed, completely or partly without hysterectomy
- Both ovaries removed, completely or partly without hysterectomy

Other, specify

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Don't Know

Answer below if more than one surgery on your uterus or ovary

If yes, how old were you the first time you had surgery on your ovaries and/or uterus?

--	--

 Age

What type of surgery did you have the first time?

- Hysterectomy (only the uterus or womb was removed)
- Hysterectomy with ovary or part of an ovary removed
- Hysterectomy with both ovaries removed
- One ovary removed, completely or partly without hysterectomy
- Both ovaries removed, completely or partly without hysterectomy

Other, specify

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Don't Know

14. Since <IntDte>, have any of your blood relatives developed any cancers or tumours? We are asking about your parents, grandparents, and any children, sisters, brothers, grandchildren, aunts, uncles, nieces, nephews, and any other more distant blood relatives you may have (for example, cousins and their children).

- Yes → please write details below
- No → go to question 15
- Don't Know → go to question 15

Name	Relationship to you	Type of cancer they had	Date of diagnosis

15. Since <IntDte>, have any of your blood relatives died? We are asking about your parents, grandparents, and any children, sisters, brothers, grandchildren, aunts, uncles, nieces, nephews, and any other more distant blood relatives you may have (for example, cousins and their children).

- Yes → please write details below
- No → go to question 16
- Don't Know → go to question 16

Name	Relationship to you	Cause of their death	Date of Death
